Special Court Of Appeals.

Virginia soon will have a special Court of Appeals for the purpose of getting the dockets cleared up and to complete the adjudication of the accumulated cases.

There has been serious congestion for more than eighteen months, due to the enactment of a law some years ago which gave appeals to all persons convicted of crime as a matter of right. These cases, a vast majority of them being violations of the prohibition law, made the dockets so heavy and cumbersome that the court was unable to keep the slate clear.

To this cause, it is said, is due the present congestion and badly-crowded dockets. The special Court of Appeals is to sit at any place that may be designated by the Supreme Court of Appeals—Richmond, Wytheville or Staunton, and can sit at any time that the Supreme Court of Appeals is not actually in session at such place.

The law creating the court prescribes that the special court may consider cases involving the constitutionality of the law as being repugnant to the Constitution, State or Federal, where the judges of the court may be unable, unwilling or disqualified to sit; cases in which a majority of the judges of the Supreme Court are so situated as to make it impossible for them to sit, and cases in which the work of the court which cannot be disposed of with reasonable diligence, and which are to be set forth on the docket of the court, and kept for record.

The three classifications of cases provide that the special Court of Appeals shall be composed of such judges as the Supreme Court of Appeals may designate, and so many judges of the Circuit Courts or judges of Corporation Courts of cities of the first class, or of the judges of either such courts, as will make the number of judges so designated five; under classifications, two and three, the court shall be composed of not less than three nor more than five of the judges of Circuit Courts or of Corporation courts of cities of the first class.

Compensation of the judges is fixed at not exceeding $10 a day, which shall include expenses. The clerks and the officers of the court are to be the officers of the special Court of Appeals. Under the law, the special Court of Appeals shall not have power to grant or refuse writs of error or appeals in any case. If a majority of the judges designated to constitute the special court shall be unable for any reason to sit in any case or cases designated and assigned by the Supreme Court, the latter shall order the case remanded to the Supreme Court of Appeals.

The law provides that the special Court of Appeals provided for in the act shall be named after the act shall become operative, which means that it will be the first part of June, perhaps, before the court names the judges to sit and aid in the work of cleaning up the docket.

Danville.—Before leaving here for his home in Martinsville, Thomas O. Burch, chairman of the Fifth District Democratic Committee, declared that under no circumstances would he be a candidate for Congress. Mr. Burch's name has been recently mentioned in that connection, it is being remembered that he was an assistant four years ago.

STATE NEWS BRIEFLY TOLD

The Latest Gleanings From All Over the State

THINGS SEEN AND HEARD

Lynchburg.—Rev. J. H. Brady, a missionary in Brazil, at home on furlough, was the principal speaker at a world fellowship service held Sunday at First Presbyterian Church by the Young Women's Christian Association.

Winchester.—Organization of a $500,000 corporation, known as the Old Virginia Packing Company, Inc., with main offices at Front Royal, was announced there by J. N. Major, who said it was the intention to manufacture all kinds of food products, with fruit contributing most of the raw material. The charter is broad and activities are not confined to Virginia.

Lynchburg.—F. S. Tinsley, of Amherst, who was fishing in Buffalo River, Amherst county, a few days ago, caught with hook and line a three-pound sucker, which was 14½ inches long. The fish is said to have made a breakfast for six persons. That catch "officially" opens the season for the followers of Izaak Walton in this section of Virginia.

Lynchburg.—The annual Chesapeake area conference and training school of the Christian Church will be held this year at Lynchburg College June 23-30, an unusually strong faculty having been enrolled by M. E. Sadler, of Richmond, religious education director of the area. Out-of-town visitors are to be entertained at Lynchburg College.

Fredericksburg. — Organization of the battlefields park committee has been completed with the election of Mrs. H. O. Swanson, treasurer, and Charles A. MacHerry, secretary. Mayor J. Garnett King is chairman, and W. J. Embrey, vice-chairman. The project has been favorably acted on by the War Department, and will soon be presented to Congress.

Portsmouth.—Miss Catherine Zoe La Coppidar, a member of the graduating class of 1924, of St. Joseph's Academy, this city, has been awarded first prize in an international essay contest conducted by the International Federation of Catholic Alumnae. She wrote on "The Good and Bad in Modern Dress." Miss LaCoppidan was in competition with contestants all over the world.

Staunton.—Earl Heatwole, of Harrisonburg, Va., brakeman on the Shenandoah Valley branch of the Baltimore and Ohio railway, was killed instantly when he fell beneath the wheels of a freight car. His crew was engaged in shifting cars in the local yard. Heatwole was riding a "wild" car, when, for some unknown reason, he lost his balance on top of the car and fell on the rail in the path of the freighter.

Fredericksburg—The recent snow, sleet and wind storm severely injured timber in a broad belt in Spotsylvania setting five miles south of Fredericksburg. The injury to young pine, particularly where cutting had been done within the last few years, runs from 10 to 50 per cent, broken, overturned and damaged irrest. The loss to timber owners will be considerable, but much of the timber injured will be cut in the near future and thus to a certain extent salvaged.

Fredericksburg—T. H. Massey has restigned his position as resident engineer at Fredericksburg under the State Highway Department. He has been succeeded by H. H. Burton, formerly resident engineer at Warsaw. Mr. Massey has taken a position with the Southern Metal Products Company, of Roanoke, Va., manufacturers of road machinery, equipment and supplies, and has established offices in the Law Building.

Norfolk.—Organization of a Howitzer Company for the One Hundred and Eighty-third Virginia Infantry has been started in Norfolk under the direction of First Lieutenant Luther S. Digge, of Company I, of the same regiment. Organization of the Howitzer Company has been authorized by the adjutant and approved by the War Department. An office in the armory is being kept open each day for recruiting purposes and the company will need fifty recruits before it can be sworn in. It is expected the company will be ready for the annual encampment at Virginia Beach in July.

Lynchburg.—Lynchburg Federal income taxpayers are about the most agreeable I have ever come in contact with," said W. C. Staples, chief of the Lynchburg district of the internal revenue department, discussing the filing of returns. Mr. Staples said that with one or two exceptions every resident of Lynchburg and its suburbs came to his office this year and co-operated to the fullest extent possible with the workers in the office in making the returns required by the Federal Government.

V HOW can you tell GOOD ROOFING?

We know of one that will withstand these

6 DARING TESTS

1 Lay a sample of Vulcanite Slate Surfaced Roofing on a hot radiator for 12 hours. See if it will melt or dry out.
Years of scorching and baking in the sun will not affect Vulcanite.

2 How, lay the sample on ice for 12 hours. Then pour boiling water over it. See if it will crack or show any signs of temperature have affected its tough pliability.
Frost, sleet and temperature changes are not enemies of Vulcanite.

3 Soak the sample in water for 12 hours. See if, by weight, it absorbs any water.
Cloudburst or hours of pelting rain roll off Vulcanite like water off a duck's back.

4 Immerse the sample in hydrochloric acid. See if it is affected in any way.
Smoke, coal or chlorine gas, acid or ammonia fumes do not harm genuine Vulcanite.

5 Lay a burning ember on the sample. See if it sets the roofing on fire.
Live sparks, blazing embers on the roof will not set a Vulcanite roof burning. Vulcanite is approved by the National Board of Fire Underwriters.

6 Lay sample on the floor; scuff it hard with your shoe. See how little of the slate surfacing will come off.
No service could ever be so severe as this foot-scuffing test.

No other roofing is backed by such advertised tests. Don't take our word for it—prove Vulcanite's quality for yourself. Call or write today.

Pain In Back & Sides

"FOR A LONG TIME," says Mrs. Dora Payne, of Huntington, Tenn., "I felt listless, tired and worn-out. I did not feel like doing my work, visiting or anything.

"I suffered much pain in my back and sides. My limbs hurt, my knees would tremble without apparent cause and I would have to sit down.

"I was very nervous. . . . I would have a tired, dull headache.

"I had read so much about Cardui I asked my husband to get it for me. The very first bottle seemed to help me. After the second . . . I was better than I had been in months. I certainly can praise Cardui.

"I have taken three bottles. Now I hardly walk when the sun shines. I do garden. I am feeling fine."

Similar results to those described above have been reported by thousands of other women. Cardui's 40 years of success should encourage you to give it a thorough trial for the relief of any common female ailments. For sale everywhere.

A cortege of relatives and friends assembled at the residence of the late William Garrett, to pay the last and rites to the memory of a good man. Rev. Gordon preached a comforting sermon to the bereaved ones. "Nearer My God to Thee", "Jesus Lover of My Soul" and "Will the Circle be Unbroken" were sung at the grave. Messrs. Wm. Carter, Milton Reynolds, Therius Robertson, Wm. Beale, Thomas Robertson, and Walker Carnefix were the pall bearers and his young grand daughters carried the flowers.

Mr. Garrett had been sick for quite a while, but his friends had hoped he was getting better. The end came quite suddenly. He was in his 68th year and leaves a wife, one daughter, Mrs. Pittsgh Martin, and four sons, Fletcher, Spencer, Walker and Thomas, to mourn their loss. He was a good christian gentleman upright and honorable in all his dealings and left to his family the legacy of a good name. The family has the sympathy of the whole community.
